

INSTAGRAM · SEPTEMBER 2026

Instagram changed five things this summer.

One of them can make your clinic invisible.
Most accounts haven't noticed yet.

What actually changed

ROLLED OUT OR IN TEST · JUN-SEP 2026

Reposting others' content	✗ penalised
A caption on every carousel slide	✓ new
Retention and Skip Rate metrics	✓ new
Users now choose their own topics	✓ live

PLUS A NEW WORDMARK, THE FIRST IN TEN YEARS

DIVANGROUP.CA

DISCIPLINE. CONSISTENCY. CREATIVITY.

Reposts that get you removed from recommendations

10

in thirty days. Explore and Reels, gone.
That is one supplier post every three days.

THE LINE FROM THE TOP

Instagram's head said it plainly:
raw, real human content will be
prioritised over AI-generated
material for all of 2026.

What's now working in your favour

- **One caption per slide**

Each treatment slide in a carousel now carries its own explanation.

- **Reels up to three minutes**

Now recommended to people who don't follow you. Room to explain.

- **Series**

Bundle reels into an ordered run. A treatment journey, watched start to finish.

- **Retention Rate**

You can finally see where people stop watching, second by second.

Users pick their topics now. Do you fit one?

WHAT THE ALGORITHM SEES ON A TYPICAL CLINIC FEED

Treatment education	✓ clear
Staff birthday	✗ noise
Reposted brand ad	✗ penalty
Motivational quote	✗ noise

MIXED TOPICS MAKE YOU HARDER TO RECOMMEND
